FIELDS OF INTERESTS Macroeconomics, Labor Macroeconomics, Social Security Systems, Savings, Pensions, Latin American Studies,

EDUCATION Ph.D. in Economics, Emory University Expected 2022
Committee Chairs: Karen Kopecky, Kaiji Chen
Master in Economics, Emory University 2020
B.Sc. in Economics, Universidad del Pacífico, Peru 2013

WORKING PAPERS *"The impact of pension systems in labor markets with informality" – Job Market Paper*
I study the impact of pension systems in economies with informal labor markets. When the government can only regulate the formal sector, payments to social protection programs are only mandatory for workers in formal jobs. Thus, contributions to a pension system impose a liquidity constraint on workers in the formal sector. I develop a heterogeneous agent life-cycle OLG model where informality arises endogenously as workers choose their optimal working sector.
